

## **Pharmacist Prescribers and Clinical Pharmacists working within general practices**

### **Peer Support and Role Development Day**

**Friday December 2<sup>nd</sup> 2016**

**Wellington Club (The Terrace)**

**9 am to 5 pm**

From requests there has been a need identified for

1. A gathering for Peer support as many of us are working in isolation, and
2. Development of a Framework for our activities and roles. This, along with salary expectations, is requested so that we have a consistent approach to DHBs for funding.

CAPA has organised a meeting to primarily address these issues for prescribing pharmacists, but we also welcome those pharmacists working with / within general practices. This will be an interactive day

#### **Agenda**

- |  |                 |
|--|-----------------|
| ◦ Clinical reasoning and decision making   | Facilitator TBA |
| ◦ Responsibilities and accountabilities and decision making dilemmas in practice |                 |
| ◦ Proposed salary bands for clinical advisory pharmacists                        | John Dunlop     |

From the second session we will be identifying the activities and roles we are involved in, the skills and characteristics required to fulfill these roles and so develop a framework for working within general practice

**This day is free for CAPA members, and \$70 for non-CAPA members.**

**Lunch, morning and afternoon tea provided.**

**RSVP November 18<sup>th</sup> 2016**
